M24 Chaffee Light Tank 1943-85 Steven J. Zaloga 2022-02-17 The history of US light tanks during World War II is a chequered one. The Light Battalions of US Armored Divisions were initially filled with M3A1 and M5 Stuart tanks, however, on the battlefields of North Africa it was realised that these were disastrously under armoured and gunned, and a replacement, or the abandonment of light tank doctrine, was desperately needed. It wasn't until the last few months of WWII that the M24 Chaffee came into service and it was extensively used in combat from the Battle of the Bulge to the final campaigns in Germany. This book will trace the history of this design, its combat record in World War II, its many variants, and its extensive combat record post 1945.

Go - Transport Times of the West 1978-07

Engineering Extension Series (Purdue University. Dept. of Engineering Extension) 1960 Includes proceedings of various conferences sponsored by the University.

1986 Site Preparation Equipment Trials in Alberta Doug A. Gibbard 1987 The Donaren 180D powered disk trencher was first tested in Alberta in 1983 and found wanting. The Sinkkila is a Finnish spot scarifier used in Finland for the last 20 years. It was investigated in Alberta as a site preparation tool on clay soil where raised or mounded microsites may offer advantages for the survival and growth of spruce planting stock. Trials were held to determine if the Donaren & Sinkkila could create plantable spots and expose mineral soil on a range of full-tree logged sites. Portions of 3 sites were used to evaluate the effectiveness of the implements using the Great Lakes Forestry Centre's Standard Assessment Procedures, adopted to facilitate the collection of data using standard accepted methodology allowing comparison between sites and with other equipment trials conducted across Canada.

Special Police Vehicles Larry Shapiro Most of today's law enforcement agencies maintain or have access to Critical Incident Response Teams (formerly SWAT) and their specialized vehicles. Some of the contraptions featured in this all-color, on-scene look at CIRT vehicles include SUVs, buses, motorcycles, and ATVs. Shapiro explains the functions of each vehicle and relates true stories of dangerous law enforcement tasks such as hazardous-material transportation and drug enforcement.
