Reflective and reflexive practice - Learning for Sustainability

Reflective practice is the capacity to reflect on action so as to engage in a process of continuous learning. In its simplest form it involves thinking about, or reflecting on, what you do. It is closely linked to the concept of learning from experience. Of course, most of us think about what has happened, it is part of being human.

The Importance of Reflexivity in Qualitative Research — Delve

Feb 24, 2022 · Typically, reflexivity involves examining your own judgments, practices, and belief systems during the data collection process. The goal of being reflexive is to identify any personal beliefs that may have incidentally affected the research. During reflexivity, you must be prepared to question your own assumptions.
