More on the differences between Comrade Togliatti and us: some important problems of Leninism in the contemporary world, by the Editorial Dept

Palmiro Togliatti Aldo Agosti 2008-07-30 Palmiro Togliatti could not have become leader of the Italian Communist Party at a more difficult time in the Party's history. In 1926, while he was away from Italy representing the Party in Moscow, Mussolini's Fascist government outlawed the organisation and arrested all the other leading Communists, including Antonio Gramsci, and Togliatti became leader - but at the cost of living in exile for nearly twenty years. Drawing on unprecedented access to private correspondence and newly available archives, this is the first full biography of this important Communist politician and intellectual. Like many successful politicians, Togliatti was a man of contradictions - the dedicated Party man who was also instrumental in creating the constitution of Republican Italy - whose personal charisma and political acumen kept him at the forefront of Italian politics for nearly forty years. Aldo Agosti explores Togliatti's intellectual development; his achievements and his sometimes criminal mistakes as the leading member of the Comintern; his complex relationship with Moscow; and his lasting impact on Italian politics. The result is a meticulous and fascinating life of one of Western Europe's most successful Communist leaders, which at the same time casts fresh light on the internal politics of the Comintern.

West European Communism and American Foreign Policy Michael Arthur Ledeen 1987-01-01 The great vogue of Eurocommunism came to an end with the return of the French and Italian Communist Parties to positions of opposition to authority in the late 1970's, and the electoral confirmation that Spain's Communist Party would remain small. As the vogue of communism with a human face passed. The question of American policy toward Communists became far less pressing; yet the question will almost certainly require attention in the future. This is particularly true with respect to the Italian Communist Party, which remains powerful in numbers and flexible

in policy. Michael Ledeen examines Communist Party participation in Western European governments since World War II, and the ambivalent American foreign policy toward it. He concentrates on the Italian Communist Party: its history and its relations with the Soviet Union. Togliatti, Secchia, Gramsci, Nenni are identified as the major players in Italian communist and socialist politics. The author explores in depth why the United States has been reluctant to become involved in internal Italian affairs, and how this policy posture has strongly influenced in the development of communism in Western Europe. Ledeen shows that the strategies of contemporary West European Communist Parties are now roughly similar to those of the immediate post-war period. He argues that American intellectuals are as uncritical of Eurocommunism as they were after the first flush of Allied victory in World War II, that the Carter administration's foreign policy was incoherent, and that the United States needs a consistent, ideological approach to communism--one that includes the capacity for action as well as reaction. Michael Ledeen is a senior associate of the Center for Strategic and International Studies at Georgetown University, and formerly taught history at Washington University. He was the founding editor of The Washington Quarterly, and is the author of, among other works, Grave New World; The First Duce: D'Annunzio at Fiume; and editor of U.S. Defense and Foreign Policy.

Who are They?: Maurice Thorez and Palmiro Togliatti (France-Italy) Library of Congress. Legislative Reference Service 1957

Stalin and Togliatti Elena Aga Rossi 2011 The authors employ previously classified documents in Russian and Italian archives, including reports to Stalin on the virtually daily meetings of Palmiro Togliatti, head of the Italian Communist Party, with Soviet diplomats. This recent, post-revisionist scholarship underscores the role of Stalin's ambitions and their incompatibility with liberal-democratic systems in the development of the Cold War. Stalin and Togliatti come across as shrewd politicians, implacable enemies of the capitalist West, yet acutely aware of the limits of their power.
